Hedge Funds aim to produce returns superior to those of bonds and equities irrespective of market direction therefore profiting throughout the changing world economic cycles of Recession, Recovery, Boom and Slowdown.
- 5: **Professional Investor Fund:** The underlying fund that the internal fund invests into is classified as a Professional Investor Fund. Such funds are aimed at market professionals and consequently are subject to less regulation due to the experience of the intended recipient. The generally accepted definition of a professional investor is any person:
 - (a) whose ordinary business involves, whether for his own account or the account of others, the acquisition or disposal of property of the same kind as the property of the Fund; or
 - (b) whether individually or jointly with his spouse, has net worth in excess of one million US Dollars or its equivalent in any other currency and that he consents to being treated as a Professional Investor.

Friends Provident International Limited is classified as the Professional Investor and we operate the internal fund to enable our policyholders to collectively access the underlying fund. Policyholders should understand the nature of the fund and the details are available in our Fund Guide. Professional Fund status does not necessarily imply a high risk fund.
